

# Conference Calling

## Conference Calling without the complication

An **easy to manage** scalable solution with simple pricing that makes sense.

**SIMPLE TO USE**

**NO TIME LIMITS**

**AFFORDABLE**

**Collaboration drives innovation, and a good conference solution enhances teamwork, facilitates open communication, and leads to successful outcomes. A reliable and user-friendly conference tool helps you stay connected and collaborate seamlessly with your team.**

Phone conferencing is used by a wide range of individuals from consultants, to small businesses, to fortune-class companies. Whether it's a home-based business with a single office or a multinational company with locations worldwide, a Conference Bridge is a useful tool to help your business unite and communicate effectively.

Most providers allow for multi-way calling with three or more callers. But the more callers you have, the more complicated it gets. Conference Bridges allow all the users to connect to the call through one simple method.

# Conference Calling

## What is a Conference Bridge?

A conference call is a call that takes place between two or more callers over different phone lines or an Internet connection. A conference bridge is a software that creates a digital conferencing room where these calls can all connect together.

## Direct the Conversation

- **Manageability:** Invite, admit, mute, and eject participants.
- **Ease of Access:** Assign multiple phone numbers and Toll-Free numbers directly to the conference, or, assign the conference to an auto attendant.
- **Secure:** Highly configurable and pin-secured to ensure the safety and security of the participants.
- **Cost:** Simple monthly cost with flat rates, no per-minute charges (except in the case of Toll-Free Numbers)

## Scale to Fit Your Needs

Why pay extra for space you don't need? With our tiered system, you can decide what works for your business, no matter the size:

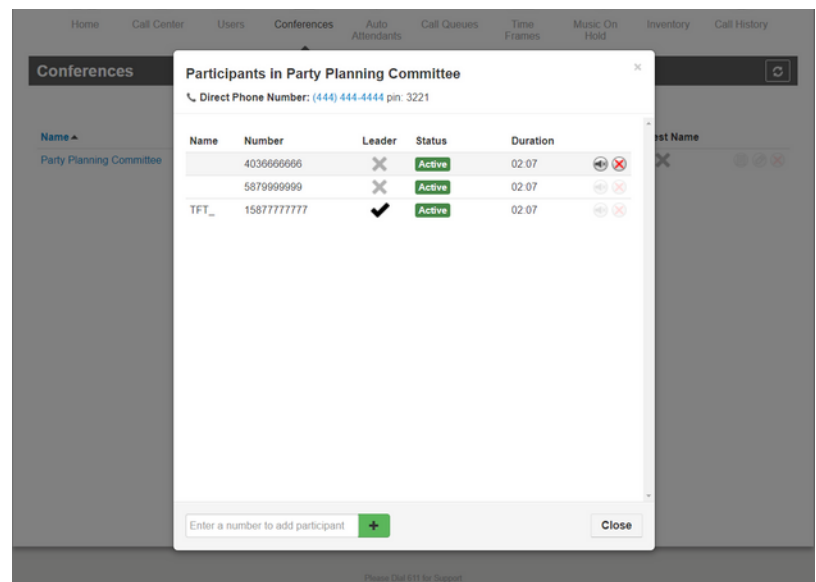

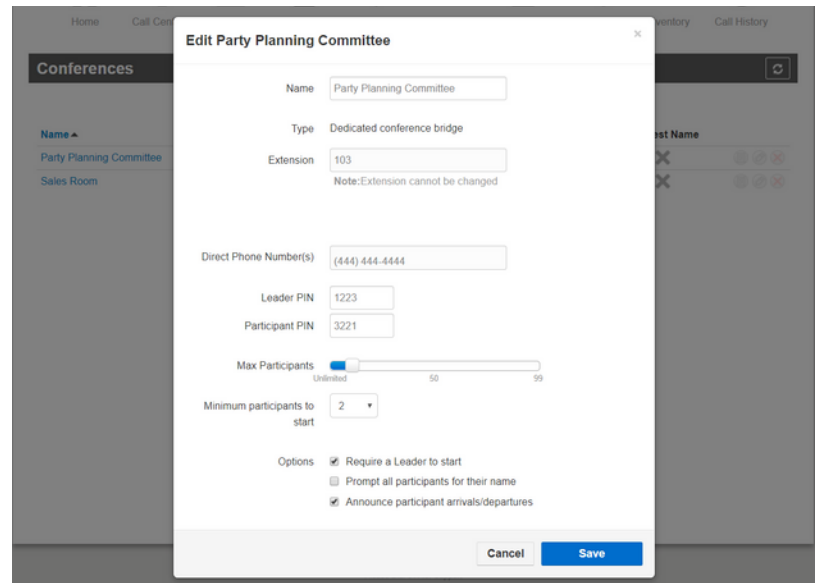

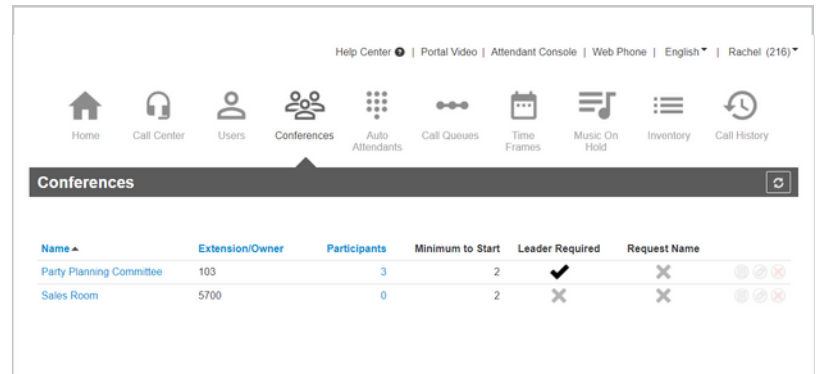

- 10 Party Meet-Me
- 20 Party Meet-Me
- 30+ Party Meet-Me

## Manageability

Use in-call DTMF star codes to manage a conference, or, log into the web portal and manage the conference easily. The conference is in the control of the leader no matter how they connect.

## Statistics

Know who called into the conference and when. View a 30-day historical list of conferences that have occurred, the duration they were connected, the phone number which called in, and the time they connected, easily accessed from within the web portal.

*Note: This optional feature comes at an additional cost*
