Cloud-based faxing is a modern and secure solution that offers convenience and flexibility. It allows you to send and receive faxes from any device, providing greater mobility and efficiency. It is a cost effective solution for a modern business.

With Internet Fax you get reliable Fax-to-Email and Email-to-Fax service to meet all your business needs. Fax from any web-connected device, from any location, at any time, and direct incoming faxes straight to your email inbox. Even better, you can schedule, manage and store all your faxes online in one central location for easy access.

Internet Fax offers all these features at a tremendous savings over similar services. And compared to traditional fax machines, there's no wasted supplies like ink or paper to pay for – you only print the faxes you need.

Fax from the Web

Log in to your online fax account from our website and you can view, send, receive, forward faxes using our easy to follow screens.

Fax by Email

Fax to any fax number using your regular Email account. No additional software is required.

Fax File Format

Receive faxes in PDF or TIFF file formats.

Never Busy Service

You can receive multiple faxes simultaneously and your clients will never get a busy signal.

Multiple Email Accounts

Send a fax from any one of your email accounts. You are allowed to send from 8 authorized Email addresses. You can cc (carbon copy) an unlimited number of email addresses when a fax is received or sent.

Cover Pages

We provide you with a choice of three cover pages: Personal, Company and Standard. Use the one you need for each fax. Cover pages can also be customized with your own logo.

Unlimited Storage

Never lose a fax again. We keep a copy of all your faxes on our servers in Canada for as long as you are a client. All your faxes are available to you to view when you login to your Internet fax account, until you optionally delete them.

Excellent Junk Fax Filters

By reviewing your faxes online or in your email you can simply delete those paper- consuming junk faxes.

Privacy and Security

Privacy is guaranteed through password protection and online SSL encryption. We do not share any of your information with any third parties. HIPAA and PHIPA compliant

Schedule Fax Delivery

When sending a fax via the online portal, it can be sent immediately, or you can schedule it for a later time.

Unlimited Pages

Fax as many pages as you like. You can send or receive more than your allocated included pages per month by paying a small additional fee per page.

Auto Resend

Our service will automatically resend failed fax transmissions up to 6 times. You can set the number of retries for your account.

Multiple Recipients

The same fax can be sent to up to 50 fax numbers at a time.
