

**INCREASED  
PRODUCTIVITY**

**SIMPLE  
DEPLOYMENT**

**ADAPTABLE**

**Enhance Microsoft Teams by integrating advanced communication tools such as reliable calling, SMS, fax, and analytics—all without the need for a Teams Phone license. This solution streamlines workflows and boosts productivity by bringing essential communication features directly into the Teams platform.**

Microsoft Teams is a leading platform for business collaboration, but its built-in communication features can fall short for teams that need more advanced capabilities. By integrating reliable calling, SMS, fax, and contact center tools directly into the Teams experience, this solution empowers businesses to communicate more effectively without requiring a Teams Phone license.

Whether your team is remote, on-site, or hybrid, this integration ensures seamless communication and collaboration with tools designed to enhance productivity and simplify workflows—all within the Microsoft Teams environment you already know and trust.

# Microsoft Teams

Microsoft Teams is one of the fastest-growing business applications, trusted by over 500,000 organizations worldwide. By combining Teams with our cloud-based phone system, you can streamline communication, simplify IT management, and boost productivity. This integration creates a unified platform that ensures your team stays connected, whether in the office, at home, or on the go.

## Flexible Communication

Our Microsoft Teams integration prioritizes flexibility, reliability, and mobility. It allows your team to communicate seamlessly across all devices—desktop, mobile, or tablet—ensuring they're always connected. With consistent call quality and customizable settings for users or groups, the solution adapts to your business needs, empowering your team to collaborate effortlessly from anywhere.

## Key Features:

**SMS and MMS Integration** - Enable SMS and MMS capabilities directly in Microsoft Teams with UnitedCloud, offering functionality Microsoft doesn't natively provide. Communicate easily with customers and teams via text messaging.

**Unified Messaging in One Platform** - Simplify your workflows with calling, SMS, and fax, integrated directly into Microsoft Teams. This feature streamlines cross-channel communication, keeping everything in one familiar and efficient platform..

**Customizable User Access** - Deploy calling features to select users or groups, giving you the flexibility to tailor the solution to your business needs.

**Cloud-Based Reliability** - Enjoy seamless cloud calling capabilities without needing a Microsoft Teams Phone license. This integration makes communication smooth, efficient, and cost-effective.

**Advanced Calling Features** - Unlock a range of features like 3-digit dialling, call recording, SMS messaging, and contact center tools—enhancing Teams with capabilities not available on its own.

Discover how our Microsoft Teams integration can revolutionize your team's communication, improve workflows, and enhance productivity—all within one unified platform. With advanced features like reliable calling, SMS, fax, and real-time analytics, this solution is designed to keep your team connected and efficient, no matter where or how they work. Transform the way your business communicates and collaborates with a seamless integration that's built to scale with your needs.
